INFO 2302 Web Technologies

Individual Assignment (10%)

Requirements

1. Refer to the RM1 campaign program brochure.

2. Use HTML and CSS to create and style a 1-page website for the RM1 campaign program. The 1-page website must include: -
    a) Basic information
        •   Must contain at least TWO (2) images: (1) IIUM logo, and (2) another image to represent/describe the program.
        •   The name of the program (RM1 campaign).
        •   The tagline (Let your contributions be perpetual for the pleasure of Allah swt).
        •   The Quranic verse (Al-Baqarah:261).

    b) The monthly salary deduction form
        •   Use suitable form controls (such as text-fields, radio buttons, buttons).
        •   Include basic HTML form validation.

    c) IIUM Endowment Fund contact information.

3. Use JavaScript to add at least ONE (1) interaction to your 1-page website. Examples of interactions:
    •   Scrolling buttons
    •   Mouse-over user interface effects
    •   Clickable components
    •   Changing or adding new fields upon making options on the web forms

Submission instructions

a) Upload your HTML, CSS, JS and images files to Github.
b) Include a readme file to your Github with the following:
    •   Describe the JavaScript interaction that you have created for the 1-page website.
    •   List out your references to create your 1-page website.
c) Submit the Github link to iTaleemc no later than **Monday, 4 December, 5.00pm**.
d) Late submission won't be accepted. Students will be automatically awarded zero if there is no submission to iTaleemc.

Assessment criteria

a) Fulfill all requirements: 7%
b) Creativity: 3%
